Horses, Buggies and Saddle Horses

—TO LET—

And Horses Boarded by the Day, Week or month at Terms to Suit the Times.

I have also a large hay yard with good stables. Also cattle well watered. In stock. HAYES TO LET.

A PRINCELY PRIEST

Max of Saxony's Mission Among the Slaves of London.

Since the foundation of the Christian religion no son of any reigning house has followed so implicitly the example and precepts of the Saviour as Prince Max of Saxony, who, after being ordained priest the other day at Dresden, has now insisted on devoting himself to mission work in the poorest and most miserable quarter of London. It had been fondly imagined by his relatives, as well as by the general public, that, once admitted to holy orders, he would have been content therewith and satisfied to accept such ecclesiastical preferment as would have given him in the church a rank consonant with the loftiness of his birth.

The last member of a reigning house to become a priest was Archduke Leopold of Austria, the patron of Beethoven, who became a cardinal very shortly after his ordination, while Prince Gustav Hohenlohe and the late Prince Charles Bonaparte were elevated to seats in the sacred college at a very early age.

Prince Max, however, has spurned all offers in this sense, and his object in taking up his residence in the White-chapel quarter of London is that there he will run no danger of being treated as anything else than a mere priest, whereas in Germany the authorities, as well as the poor, would never succeed in blinding themselves to the fact that he is in reality a royal prince, within easy reach of the throne of Saxony.

The German church in London to which Prince Max of Saxony is attached, bears the name of St. Bonaparte, is nearly 100 years old and stands in the Commercial road. Attached to the church is a sort of Young Men's Christian union, a convent and a very important German hospital, all situated in the poorest quarter of the British metropolis. In fact, it is difficult to conceive any more startling transition than that from an inmate of some of the most beautiful palaces in Europe, of prince of the blood and an officer of a crack cavalry regiment to the position of a humble worker of the church in the London slums.

Prince Max, although the only son of a royal house to become a missionary, will find in the east end of London quite a number of great English nobles and ladies of the aristocracy who, abandoning their homes and their pleasures in the fashionable west end, have established themselves permanently in the east end of London for the purpose of supporting and relieving the terrible misery around them. Thus there are the dowager Duchess of Newcastle, Lord Beauchamp, Lord Radstock, the Duke of Hamilton and his two sisters, who are all engaged in this mission work in the slums of London and keeping house there, leaving their vast and magnificent estates entirely deserted. —Marquise de Pontenoy in New York Recorder.

A PNEUMATIC FARM.

Mrs. Johnson Can Strike Nothing but Wind Near Sioux City, Ia.

Mrs. Mary Johnson has a pneumatic farm near Leavenworth, S. D., through the surface of which a gang of expert drillers have been trying for weeks to sink a drive well. To a depth of between 120 and 180 feet the tubing enters the soil without difficulty, but as soon as the air cushion is reached the wind rushes out with a screech like a locomotive, 35 pound sledge are tossed into the air as lightly as feathers, and operations have to be suspended.

When this commotion took place the first time, the workmen figured that they had merely struck a wind pocket. After waiting several days in the hope that it would exhaust itself, they pulled out the tubing and made a fresh start in a new location. At about the same depth as before the old programme was repeated. A half dozen attempts have now been made, with no greater degree of success. From the last hole the wind swelled so strongly of gas that the drillers were unable to work over it.

They have finally given up in despair, but Mrs. Johnson has submitted the matter to the state geologist, who proposes, if possible, to find out what is the cause of the phenomenon.

A COINCIDENCE.

Spring Struck While Constructing a New "Grotto of Lourdes."

A facsimile of the grotto of Lourdes is now the chief point of interest to visitors at Notre Dame university at La Porte, Ind. The site chosen is regarded as one of the charming spots of Notre Dame. At present little can be seen of the ultimate appearance of the grounds around the grotto except that they are intended to look exactly like the grounds at Lourdes.

A curious thing happened while the laborers were digging for the foundation. Just to the left of the cavern, in relatively the same spot from which the miraculous flow of Lourdes proceeds, a spring of the clearest water was accidentally struck. The coincidence is considered remarkable. —Cincinnati Enquirer.

In the human subject the brain is the one-twenty-eighth part of the whole body's entire weight. In the horse it is not more than one-four-hundredth part.

WEAK MEN

CURED AS IF BY MAGIC.

Victims of Lost Manhood should send at once for a book that explains how full manly vigor is easily, quickly and permanently restored. No man suffering from weakness can afford to ignore this timely advice. Book tells how full strength, development and tone are imparted to every portion of the body. Sent with positive proofs (sealed) free to any man on application. **ERIE MEDICAL CO., BUFFALO, N.Y.**

"TAKEN IN."

"I used often to read the newspaper aloud to my wife," said Bert Robinson, "and once I was fairly 'taken in' by a patent medicine advertisement. The seductive paragraph began with a modest account of the sufferer, but ended by setting forth the virtues of Dr. Pierce's Golden Medical Discovery, which, it was alleged, was a cure for all Bronchitis, Throat and Lung troubles, and would even cure Consumption, if taken in time. The way I was taken in was this: I had lung disease, and I bought a bottle of the remedy. I was a stranger to it, and it took me in—and cured me. Robinson's experience is identical with that of thousands of others. So true is this, that after witnessing, for many years, the marvelous cures of Bronchitis, Throat and Lung affections wrought by this wonderful remedy, its manufacturers feel warranted in saying that this remedy will cure 99 out of 100 of all cases of consumption, if taken in the earlier stages of the disease. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like nostrums.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred ailments, have been skillfully reproduced in a book of two pages which will be mailed to you, on receipt of address and 21 cents in stamps. You can then write those cured and learn their experience.

Address for Book, **WORLD'S DISPENSARY MEDICAL ASSOCIATION**, 663 Main Street, Buffalo, N. Y.

FIFTY-CENT COLUMN.

All classes of legitimate advertisements not exceeding six lines inserted in this column at 50 cents per week.

THURSDAY, OCTOBER 8, 1896.

EASTERN ADVERTISING OFFICE, 230
E. Temple Court, New York City
R. Katz, Agent.FOR PRESIDENT,
WILLIAM J. BRYAN,
OF NEBRASKA.FOR VICE PRESIDENT,
ARTHUR SEWALL
OF MAINE

THE TWO SETS OF ELECTIONS.

"Populist" has a criticism in this issue of the JOURNAL on an article relating to Presidential elections in this State which appeared in these columns on the 6th instant. In the improbable event of Sewall and Watson having an equal number of votes for Vice President and the Nevada electors having the decisive votes, it would be to Watson's advantage, of course, to have the electors of this State pledged to vote for him. But such a contingency is remote and upon the basis of fact adopted in the several States, impossible, hence the contention of "Populist" is not to the point.

"Populist" and all intelligent persons know that unless Bryan is elected Watson cannot be. It is therefore of the greatest importance to secure a majority of the electoral votes for Bryan, and unless the Populists attach more importance to Watson's election than they do to the election of Bryan, they will do nothing to endanger a vote for Bryan. Everybody knows that two sets of Presidential electors, though both are pledged to Bryan, give the gold men undue advantage, as it divides the votes of the Bryan men. It is also well known that there is a much greater probability of the Bryan and Sewall electors carrying the State than there is of the Bryan and Watson electors doing so, and all that the latter can reasonably expect to accomplish by remaining on the ticket is to divide the Bryan vote. It is their object to do that and they prefer the election of McKinley to the election of Bryan, unless the State goes for Watson, then they will vote for the Bryan and Watson electors, otherwise they will not.

"Populist" ought to know that if Bryan has a majority in the Electoral College, it does not follow that either Sewall or Watson will. The victory for Watson cannot therefore be won without the aid of Sewall men, and it is understood that if Watson has more votes than Sewall, but not enough to elect him, the Sewall electors will vote for him, in fact they are pledged to do so in this State.

Under such circumstances, we repeat, "that the manly, patriotic thing for the Bryan and Watson electors to do is to have their names taken off the official ballot," and, no doubt, if "Populist" gives the matter a second thought, he will fully agree with us.

CONGRESS AS WELL AS PRESIDENT.

The election of Bryan is virtually conceded. The gold men must carry every State east of the Missouri and north of Virginia, Kentucky and Missouri and this they privately admit they cannot do. Illinois, Minnesota and Michigan are practically certain to give their electoral votes to Bryan, and Iowa, Indiana and Ohio are, according to as reliable reports as can be had in those States, very likely to give Bryan a majority. The result in Ohio is said to depend upon the vote of Hamilton county, which may or may not go for McKinley.

But it is not sufficient to elect Bryan. We must have a Congress in full sympathy with his financial views, and Nevada must do its part in electing such a Congress by returning Senator Jones and Congressman Newlands. Both have a national reputation. Their services are sought in the East by silver Republicans, Democrats and Populists, and it would be a national misfortune if by any combination of place hunters and precinct statesmen they should be defeated. See to it, silver men of all parties, that they are re-elected.

MANDERSON AND HANNA RESPONDENT.

Senator Manderon of Nebraska, writing of the outlook in his own State and in the West generally, says "the East should realize that there is but little hope, unless conditions change, that McKinley will get a single electoral vote in any State west of the Missouri. If Bryan is to be defeated it must be by carrying every State east of the Missouri river and north of Virginia, Kentucky and Missouri for McKinley."

Mark Hanna, who as the papers say, is running for President and Vice President, while publicly claiming almost every State in the Union, expresses a very different opinion privately. He is reported as saying to a number of his friends during his visit to Chicago a few days ago that he has but little, if any faith, in the election of McKinley. "No matter," said he, "what we say or do to the laboring men, Sovereign, Debs and other leaders have them so well organized and instructed that they will go to the polls and when they get inside the booths they will vote as they please."

Bryan left Indianapolis for Chicago yesterday and delivered several short speeches at stations along the road.

SILVER STANDARD MEASUREMENT.

The Chicago Record, which is one of the fairest of newspapers, sent a special commission to Mexico to investigate and report the effect of free coinage on that Republic. W. E. Curtis, chief of the commission, in one of his articles makes this statement:

"On the railroads a general foreman gets \$185 a month; roundhouse foreman \$6 75 a day; machine shop foreman, \$5 75 a day; foreign of machinists, \$5 35, and native machinists, \$3 to \$4 per day; foreign blacksmiths, \$4 80 to \$5 75. In 1890 the imports were \$52,000,000 and exports \$63,000,000, while in 1895 the exports were \$90,000,000 and the imports fell to \$32,000,000 in round numbers. That is to say the balance of trade had decreased over 400 per cent.

WEBSTER VS. BIGELOW.

Judge Bigelow since he was converted by Mr. Hanna, has reversed all his former opinions on the financial question, and tells the people it would be repudiation and fraud to redeem the Government obligations in the money nominated in the bond. The great Daniel Webster in the twenty-fourth Congress, (1836) said 'Gold and silver are the money of the Constitution. The constitutional standard of value is established and cannot be overturned. Gold and silver at ratios fixed by Congress constitute the legal standard of value in this country, and neither Congress nor any State has authority to establish any other standard or dispose of this'

COLORED MEN FOR FREE COINAGE

The editors of the five leading colored newspapers of the United States have issued an address to the colored voters in which they say that the adoption of the free coinage policy is for the best good of the common people and especially the negro, who is the common laborer. The colored men should, to a man, be in favor of Bryan and silver. The aristocrats and their gold, who stand for McKinley, did not free the negroes in the sixties. The former fled to Europe or engaged substitutes, and the gold went into hiding and left the war to be fought on silver and greenbacks.

THE SOLDIERS' MONUMENT.

Dedictory Services at Mount Hope, Illinois.

GALESBURG, Ill., October 7.—The celebration of the thirty-eighth anniversary of the Lincoln-Douglas debate opened with the dedication of the Soldiers' Monument in Hope Cemetery this forenoon. The principal business streets are appropriately decorated, and there are present a large number of visitors. From 9 until 10 o'clock the gold standard Democrats tendered Senator Palmer a reception at Brown's hotel. A procession led by Knox College cadets, was reviewed by Dr. Chauncey M. Depew, Robert T. Lincoln, S. S. McClure, editor of McClure's magazine, and other distinguished visitors; and all the pupils of the city schools.

The exercises at the monument took place immediately afterward. The venerable Dr. Richard Haney offered a prayer. Hon. Robert T. Lincoln of Chicago unveiled the monument and delivered an address in which he emphasized the point that the lesson to be learned from the lives of the men buried here and their comrades is that no danger to the Republic is so great that it may not be overcome by a union of patriotism. Department Commander Cochran delivered an oration and was followed by Mrs. Mary E. McCauley, Department President of the Illinois Woman's Relief Corps. The monument is of granite surmounted by the figure of a soldier.

The Georgia Elections.

Special to the JOURNAL.

ATLANTA, Ga., October 7.—The polls throughout the State closed at 6 o'clock and the bulletins received indicate that Atkinson's majority will be not less than 30,000.

Hon. A. S. Clay, Chairman of the Democratic State Committee, says: "It is impossible at this hour to predict with certainty the size of the Democratic majority. This count is slow and it will probably be midnight before we can get any more satisfactory information. Almost without exception the results are satisfactory and that seven out of every ten counties report an increase over four years ago."

The State can be reported as absolutely Democratic by more than 20,000 with the probability of the majority exceeding 30,000. Atkinson's majority two years ago was 24,000.

Reports to the Constitution from all parts of the State indicate that Atkinson's majority for Governor will exceed 35,000 with a possibility that it will go over 40,000. The majority for the remainder of the State ticket will largely exceed that of Atkinson.

Reports indicate that the Democrats have carried the Tenth District, which is the stronghold of the Populists in Georgia. Thomas E. Watson, the Populist candidate for President, lives in this district.

Latest From Florida.

Special to the JOURNAL.
JACKSONVILLE, Florida, October 7.—Official returns from the State election just coming in indicates a very light vote and a heavy Democratic loss as compared with 1892. Complete returns from thirteen of one hundred and forty-five counties give Bloxham, Democrat, for Governor, 8,788, Gunby, Republican, 2,044, Weeks, Populist, 820.

The same counties in 1892 gave Mitchell (Dem.) 11,629 and Haskins (Pop.) 1,391. If the ratio obtains in other

counties, the Democratic vote will be about 24,000, a loss of about 8,000, as compared with 1892.

TELEGRAPHIC NOTES.

St. Michael's College at Logansport, Indiana, is burned. Loss \$70,000; insurance, \$35,000.

A small delegation of Mr. Hanna's hired men visited Canton yesterday and were addressed by Mr. McKinley. The performance at the opera in Paris ended abruptly by reason of the illness of the Ozar, who was in the audience. His illness was caused by bad cooking.

The passenger steamer Columbia struck a rock in the Ohio river near Rad House yesterday and sank almost immediately. The passengers escaped in boats.

An election riot occurred at Eberton, Georgia, yesterday, in which Wm. Mayfield, shot and killed Bud Sanders, and a man named Wall seriously wounded I. M. Swift.

The Turkish Government has decided not to permit the United States war vessel Bancroft through the Dardanelles to act as guardship for the American Legation at Constantinople.

The Ozar and Ozarina, accompanied by President Faure, visited the principal points of interest in Paris yesterday and were greeted with enthusiastic demonstrations in all parts of the city.

Mrs. Herman Oelrich and Miss Birdie Fair were served with subpoenas yesterday as they were about to leave San Francisco for New York, by counsel for Mrs. Claven. They are required to remain in San Francisco until November 9th.

Thomas E. Watson, the Populist nominee for Vice President, is suffering from a severe attack of sore throat, which threatens his enforced retirement from the campaign, as his physician says he must cease using his voice for the present.

R. J. Jarvis, Postmaster at Benton Harbor, Michigan, has been removed from office for offensive partisanship. He is a candidate for Congress on the union Silver ticket and that is offensive to President Cleveland.

The returns from the Florida election are incomplete. Fifteen counties partly heard from gave Bloxham, Democrat, for Governor, 10,000 majority over Gunby, Republican. The Democratic majority in the State will probably exceed 16,000.

The strike on the Canadian Pacific is settled by the Board of Conciliation. The company agrees to take back all operators, except those guilty of destroying property or criminally jeopardizing life, and to recognize the order of Railway Telegraphers.

Telegrams announcing the arrest of Walter M. Castle and his wife and son for shoplifting in London have caused a sensation in San Francisco, where Castle is known as a rich and cultured merchant. Castle's friends have telegraphed the Secretary of State to have Ambassador Bayard instructed to do all he can to secure his release.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

NEW TO-DAY.

REGISTRATION NOTICE.

NOTICE IS HEREBY GIVEN THAT THE books of registration for the general election to be held November 3, 1896, for the election of Presidential Electors, State county and township officers, are now open and will remain open daily on all legal days from 10 o'clock A. M. to 8 o'clock P. M. in addition to the hours already mentioned, at which time the books of registration will be closed at 8 o'clock P. M. Naturalized citizens will be asked to produce their naturalization papers at the time they present themselves for registration. J. E. SHUCHTER, U. S. Registrar, Nevada.

NEGRO TURNING WHITE.

**Is a Freacher and Will Exhibit For His
 Church's Benefit.**
 Uncle Bob Alston, a negro preacher
 living in Tipton county, Tenn., is turn-
 ing white. Alston has been living all of
 his days in Tipton, where he is well
 known. He was born a slave in the
 family of Mr. James Alston and has
 many blood relations among the negroes
 of the county. He says his strange
 change began about ten years ago and
 has been increasing yearly. At present
 the lower part of his face is white to
 fairness, while the nose and brow pre-
 sent the usual dark line of the African.
 His features, too, are African, but his
 lips have the color of the Caucasian
 lips, and his hands are fairer than those
 of the average white man. The breast
 and back are almost entirely white, but
 there are islands of the black within the
 white, which is also flecked with small
 frecklelike spots of the original color.
 The genuineness of the change is at-
 tested by an affidavit over the signature
 of John A. Tipton, speaker of the Ten-
 nessee house of representatives, and E.
 K. Peto, clerk of the Tipton county
 court, both of whom certify that they
 have known Uncle Bob since their
 childhood; that he was then as black as
 any of the negroes in the county; that
 they knew of this peculiar change in
 its beginning, and have watched its
 progress throughout the ten years of its
 continuance.

There can be no doubt that this is
 some peculiar freak of nature. There
 has been one other like unto it, being
 the case of Henry Moss, a Virginia
 negro, who was on exhibition in Phila-
 delphia in July, 1796. Moss' case, as
 described in The Wonderful Magazine,
 published in 1808, is pictured very ac-
 curately and shows that it much resem-
 bles the case of Bob Alston. Both no-
 ticed that the white began just back of
 the finger nails and both became fair on
 the hand, arms, chest, limbs and part
 of the face. Both, too, claim that the
 sun burns them readily, and neither can
 give any reason for the remarkable
 change.

Alston has been examined by the best
 medical skill of Tipton county. New
 York physicians, too, have corresponded
 about his case, but it has thus far
 baffled human skill.
 Alston is a freacher. His church has
 met with misfortune, and to repair this
 and at the same time erect a school in
 his home district for the education of
 colored youth he has in the sixty-sev-
 enth year of his age consented to take a
 trip of exhibition, during which he pro-
 poses to raise the money for the above
 mentioned purposes.—Memphis Com-
 mercial-Appel.

HIS MIND RESTORED.

Feel Jones, who was struck by the
 St. Louis cyclone, Nov. 13, 1904, and
 after being dead for several days, was
 revived, and is now in the St. Louis hos-
 pital, has been the subject of much in-
 terest in his normal condition of mental
 activity.

At the time of the tornado he was
 struck in the head with a piece of fly-
 ing timber and rendered unconscious.
 He was eating a piece of watermelon at
 the time and was just asking for more
 when he was knocked senseless.

The doctors found that his skull had
 been fractured so that a fragment of
 bone pressed upon his brain, suspending
 all consciousness and memory.

The doctors studied his case very care-
 fully and finally decided to perform a
 trephining operation upon his head. He
 was sent to the City hospital, where Dr.
 Wiggins took charge of him.

The piece of bone was cut out and
 carefully raised to its proper place. The
 brain underneath was slightly congested,
 but the relief was immediately notice-
 able. Then the peculiar part of the
 whole operation occurred. Jones took
 up his train of thought just where he
 had left off when the timber hit him.
 The first thing he did was to say dis-
 tinctly, "A piece of watermelon." Then
 he wanted to know what was coming on.

The story of the cyclone will be all
 news to him as soon as he is considered
 in a safe condition to hear it. The in-
 teresting period is to him an absolute
 blank in every respect.

At last report he was doing well and
 was on the high road to complete recov-
 ery.—St. Louis Post.

CHAINLESS CYCLES.

The Greatest Innovation Since the Inven-
 tion of Pneumatic Tires.

A change in cycle construction almost
 as radical and revolutionary as the safety
 and pneumatic tire is about to be
 made. The rumor about for several days
 past that one of the oldest, largest and
 most conservative bicycle building con-
 cerns in the country is to be the parent
 of the innovation has created a profound
 sensation among riders generally and
 cycle manufacturers particularly.

The rumor is true. A leading com-
 pany will put out a chainless bicycle
 next year, and two of the models for
 1907, one for men and one for women,
 will be operated by bevel gears instead
 of the usual chain and sprocket.—Pitts-
 burg Dispatch.

Largest Propeller Ever Cast.

The largest screw propeller ever made
 in this country of open heart cast steel
 has just been cast. It measures 16 feet
 from tip of blade and has been cast suc-
 cessfully without a flaw or a crack, and
 its edges taper as beautifully as a gray
 iron casting. The propeller is intended
 to make 60 revolutions a minute, driven
 by a triple expansion engine of 4,000
 horsepower. It is to go on the steamer
 John Englis, running between New
 York city and Portland, Me. The steam-
 er is now being built at the Delaware
 River works at Chester, Pa., and the
 builders guarantee that under average
 conditions of weather the steamer will
 make 19 miles per hour. They expect to
 make the trip between New York and
 Portland in 20 hours, or four hours
 quicker than the present steamers in
 service.

PERFECT and permanent are the
cures by Hood's Sarsaparilla, be-
cause it makes pure, rich, healthy,
life and health-giving BLOOD.

A CURIOUS OCCUPATION.

Men Who Live In Dark Caverns In France and Raise Mushrooms.
 The cultivation of mushrooms is really a matter of "ancient history" in France. The people are so fond of them and find them so nutritious as well as profitable that very few Frenchmen are so poor as to be obliged to do without their beloved vegetable.

Notwithstanding the antiquity of the mushroom it is, even in these days of enlightenment, a mystery. Nobody, save a few savants, knows much about it, but everybody in France knows that it can be made to grow in almost any quantity desired.

The mushroom loves a place that is cool, damp and dark, and it is for this reason that the mushroom is almost invariably cultivated in subterranean excavations throughout France.

In the department of the Seine there are over 3,000 of these caves, and in them live about 800 people—"champonniers," who rarely see the daylight. The descent into these caves is by way of rope ladders.
 One of the most interesting sights around Paris is the subterranean excavations where this vegetable is raised. Some of the caves are nothing more or less than tunnels, while others are exhausted stone quarries, quite a number of them extending under the streets of the city. These caves have to be specially prepared for their growth, and great care and attention are given to their keeping and perfect preservation. The temperature varies but little in summer, and only climatic influences, that is a very wet or very dry season, more than one of heat or cold, tends to affect the daily production of the beds. As nearly as possible a temperature of 42 degrees F. is maintained. It is also considered of great importance that the air currents move invariably in the same direction. This should be from north to south, and never more than slightly appreciable. The mushroom beds are prepared by sprinkling a quantity of dried and pulverized wild mushrooms over a layer of earth heavily enriched; then, in alternate layers, the mushroom powder and earth are put together until a height of about three feet is attained. In about three months from the time the bed is prepared they begin to bear and when once started continuingly bring forth large quantities each day, regulated more or less according to the atmosphere of the caves.—San Francisco Call.

CAKE AN OLD INSTITUTION.

The Ancients Made and Ate It, but It Was a Simple Affair.

The ancients made cake, but it was not the rich, highly seasoned and flavored confection which we indulge in nowadays. They had plain cakes made with flour and water, some of them baked in a suspicion of sweet or flavor. If they were not unlike our present cakes and were often eaten as we eat bread.
 Wedding cake was an institution among them, as with us, but the cake was a plain one and was broken above the head of the bride as she went to her new home. This was a special feature of Roman marriages 2,000 years ago. The breaking of the cake was part of a solemn ceremony. All of the cakes of ancient history are plain and simple. It is only as we come down to more modern times that we hear of spices and fruits and all of the rich and luxurious ingredients in which present day cakebakers delight. In Queen Elizabeth's time spice cakes and buns were eaten at weddings. From these the fashion and fancy grew for all sorts of elaborate and deliciously unwholesome combinations until there seems to be a perpetual struggle for something new and more unusual to stir into the cake of the period.
 Very many persons think cake is unwholesome. Some sorts of cake may be good, but a simple cake with a little fruit in it should be specially in-
 ducious in a puzzling question. Cake made with fresh, sweet butter and fresh eggs can scarcely be a tax on the diges-
 tive powers, and no other shortening save good butter should ever be put into cake.—Philadelphia Press.

Division of Time.
 A "solar day" is measured by the rotation of the earth upon its axis, and is of different lengths, owing to the ellipticity of the earth's orbit and other causes; but a "mean solar day" is 24 hours long, as reckoned by the timepieces.

An astronomical day commences at noon and is counted from the first to the twenty-fourth hour. A "civil day" commences at midnight and is counted from the first to the twelfth hour, and then again commences with 1 and finished with 12. A "nautical day" is reckoned the same as the "civil day," only that the reckoning is begun at noon instead of at midnight.

A "calendar month" varies from 28 to 31 days. A "mean lunar month" is 29 days, 12 hours, 44 minutes, 2 1/2 seconds. A "year" is divided into 365 days. A "solar year," which is the time occupied by the sun in passing from one normal equinox to the other, consists of 365.24244 days, which is equal to 365 days, 5 hours, 48 minutes, 46.556 seconds.

A "Julian year" is 365 days even. A "Gregorian year" is 365.2426 days. The error in the Gregorian mode of time reckoning amounts to but one day in each 3,571 years.

His Whiskers.
 Counsel—Did you observe anything particular about the prisoner?
 Witness—Yes, his whiskers.
 Counsel—What did you observe with reference to his whiskers?
 Witness—That he had none.—Lawdon Fun.

This Is Your Opportunity.
 On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Ointment and May Ever Cure (Ely's Cream Balm) sufficient to demon-
 strate the great merits of the remedy.

ELY BROTHERS,
 55 Warren St., New York City.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement. "It is a positive cure for catarrh if used as directed."
 Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no mercury nor any injurious drug. Price, 50 cents.

A GREAT OPPORTUNITY

For the Unfortunate Drunkard.
CONNELLY LIQUOR CURE COMPANY.

SUMMONS.
 IN THE SECOND JUDICIAL DISTRICT Court of the State of Nevada, in and for Washoe county.

The State of Nevada sends to Margaret Dodge greeting: You are hereby required to appear in an action commenced against you as defendant by Charles E. Dodge as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of day of service); if served in said county, or twenty days if served out of said county, but within said period, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover a decree dissolving the bonds of matrimony existing between the plaintiff and defendant on the ground of desertion, commencing on or about the month of June, 1894, and continuing up to the date of filing the complaint herein, said desertion being wilful, without cause, and against the will and without the consent of plaintiff herein, all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county. And you are further notified that if you fail to appear and answer and comply with the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, at Reno, this 31st day of July, A. D. 1906.
 F. B. PORTER, Clerk.

NOTICE OF PUBLICATION.

UNITED STATES LAND OFFICE,
 CARSON CITY, Nev., July 9, 1896.
TO WHOM IT MAY CONCERN:—NOTICE is hereby given that the State of Nevada, under the act of June 16, 1896, has filed in this office a list of lands situated in the townships as described below, and has applied for a patent for said lands; that the list is open to the public for inspection, and a copy thereof, by descriptive subdivisions, has been posted in a convenient place in this office for the inspection of all persons interested, and the public generally.

Within the next sixty days following the date of this notice protests or contents against the claim of the State of Nevada to any tract or subdivision described in the list, on the ground that the same is more valuable for mineral than agricultural purposes, will be received and noted for report to the General Land Office at Washington, D. C.

The following are the subdivisions described, to-wit: Sec. 32, T. 20 N., R. 18 E., 40 acres.
 Sec. 34 of SW 1/4, sec. 32, T. 20 N., R. 18 E., 40 acres.
 W 1/2 of lot 2, sec. 4, T. 20 N., R. 19 E., 38.40 acres.
 NW 1/4 of SE 1/4, sec. 10, T. 18 N., R. 20 E., 40 acres.
 M. D. M., O. H. GALLUP, Register.

D. H. HALL, Receiver.
